The Blue Ridge Fruit and Wine Company. MILLVILLE, WEST VIRGINIA.

Charles Becker, Office 419 E. Lombard St., Louis Becker. Baltimore, Md.

The Wines and Brandles for which we solicit your orders are of our own production, and superior to any native Wines and Brandles offered. The land of the Blue Ridge Fruit and Wine Company embraces the foot hills of the Blue Ridge Mountains, on the cast bank of the Shenandoah River in Jefferson County, W. Va. This district is known to contain the same soil, has a similar climate and location as the well-known Charente and Champagne districts of France; (their soil is of a broken, chalky formation, containing a large percentage of Oxide of Iron that Imparts to their Wines and Brandles the peculiarity that has given them a world-wide reputation.) So far nowhere in the world has a similar location been discovered until the locating of the Blue Ridge Fruit and Wine Company in West Virginia. The Blue Mountain Feaches to-day stand pre-eminent; also the Grapes; and in offering our Wines and Brandles we do not claim them as Imported, but of our own production from the newly discovered Fruit Belt, and worthy of a fair comparison with the finest Imported goods.

Special attention is called to our Coguac and Brandy as being absolutely pure.

The Peach Cognac is made of the pure juice of mountain peaches (so seed or pomace is used), and is distilled for medicinal use.

Peach Brandy is made of Peach pomace; all seeds are taken out before distilling.

The Grape Cognac is made of choice white wine, and is distilled for medicinal use.

Grape Brandy is made of pomace.
